DESCRIPTION:

Our molted grass is made of durable plastic material and looks incredibly realistic. It has a natural, graceful, grasslike shape. Perfect for underplantings or groundcover in high traffic areas, but also makes a beautiful stand-alone plant.

MAINTENANCE RECOMMENDATIONS:

Clean every 6-12 months with a professional grade silk plant cleaner to remove dust buildup. Spray and allow to drip dry while plant is in place, or remove and clean with silk plant cleaner or mild soap and water solution. Rinse with water.
