GROW POT SIZES

Tree Height is measured from the floor to the top of the tree.

Overall spread is generally one-half the height.

Optional steel base plates available for all trees at an additional cost. Call for details.

DESCRIPTION:

Shady Ladies have the same open, airy look and layered branching as our original Black Olive Trees, but are more economical. The trees have a nice wide spread, with beautiful two-tone foliage that simulates new growth, or a beautiful variegated foliage. A great alternative to the traditional ficus. Can be made in sizes 6'-35'.
